

I depend on xm's services for traffic report for the phx. area. Please reject the NAB's petition 04-160. The local service in my area is not adequate and I find XM to provide excellent round the clock service. The XM format fits my entire need thru the day or night in providing my classical music demands , news reports and occasionally humor.

I pay for this and I believe I should be entitled to such a harmless but beneficial request.
